Introduction

Lane County Public Works Waste Management Division

The Waste Management Division of Lane County operates the Short Mountain Landfill and 15 transfer stations throughout Lane County. Our mission is to provide safe, responsible and economical recycling and disposal services, while respecting the environment and communities we serve. In addition to waste disposal and recycling options at these sites, we provide safe disposal options for hazardous waste and other products. Lane County collaborates with our partners to offer education, tools and resources that residents, businesses and events can use to reduce waste, conserve resources and live more sustainably.

Working Together for a Better Future

In the 1980s, the U.S. Environmental Protection Agency (EPA) established solid waste disposal laws to prevent the human health dangers caused by garbage disposal. These rules direct each state to establish solid waste systems that prevent pollution at landfills, maximize use of recoverable materials and encourage resource conservation. In 1983, Oregon legislators established the Opportunity to Recycle Act which directs cities and counties to offer recycling services and prioritize efforts to reduce waste first, reuse, then recycle or compost, and as a last resort landfill or incinerate discards.

Residents, businesses, local governments and organizations all participate in making waste and we must all be part of the solution. The following pages offer tips to use less, reuse and recycle more in order to protect the environment, create jobs, and build a stronger local economy. To understand the full impact of what we buy, use and toss, visit www.storyofstuff.com to watch “The Story of Stuff” a 20-minute animation video.

Help Lane County Reach its Recovery Goal!

Lane County has set a goal to achieve a 63 percent recovery rate by 2025. The recovery rate is the percentage of total waste generated that is recovered for recycling, composting or energy recovery rather than landfilling. Achieving this goal could reduce global greenhouse gases by an estimated 308,000 metric tons CO2 equivalent—equal to taking 64,000 cars off the road annually.

Who We Are

Lane County Public Works Department’s Waste Management Division is responsible for managing solid waste inside Lane County, Oregon. Our 100 or so employees operate 15 transfer stations spread across an area the size of Connecticut, as well as the thousand-ton-per-day Short Mountain Landfill, eight miles south of Eugene—it’s the only permitted municipal solid waste landfill in Lane County. We help customers recycle, assess and collect user fees, manage hazardous waste from households and businesses, drive trucks that transport waste from transfer stations to Short Mountain and operate heavy equipment that builds the landfill.

We also manage Lane County’s largest wetland mitigation site, screen incoming loads for hazardous wastes, provide waste reduction and recycling education, enforce illegal dumping laws and clean up illegal dump sites alongside 1,400 miles of Lane County roads. We provide an award-winning Master Recycler educational course that has over a thousand graduates, and collaborate with partner agencies, commercial garbage companies, non-profits, recyclers and other stakeholders to achieve community-wide solutions.

We are truck drivers, equipment operators, technicians, administrators, customer service professionals, subject matter experts, educators and scientists and we are truly passionate about the work we do.

www.lanecounty.org/garbageguru

Tool Lending Library

The Toolbox Project is a tool-lending library available to the residents of Lane County. The online tool library allows residents and businesses to set up an account and choose from a variety of tools for any project! To view current inventory or for more information, visit www.eugenetoolboxproject.org or call (541) 838-0125.

OSU Extension Service

The Lane County Extension Service offers expertise and classes to foster healthy families, communities, economies and environments. For a list of classes on gardening, food preservation, 4-H Youth programs, nutrition education and more, visit www.extension.oregonstate.edu/lane or call (541) 344-5859.

Reduce Junk Mail—it works!

100 million trees are cut down each year to produce more than 85 billion pieces of mail. Here are five easy steps to reduce junk mail:

- Set a zero waste goal. Consider automatic monthly payments from your credit card, bank or online bill pay.
- Sign up with Catalog Choice at www.catalogchoice.org to have your name and address removed from nearly 95% of catalog mailings.
- Register with www.DMAchoice.org and pay \$2 for customized mail preferences for a period of ten years.
- Avoid joining new mailing lists. Remember to tick the box "don't want to receive promotional mailings".
- Mark junk mail "return to sender" and send it back in the mail.

Is it recyclable? Ask Garbage Guru

Waste Prevention Tips: Less is Best

If you think about it, everything in your garbage can is something you paid for, either directly or indirectly. Here are easy changes to purchasing habits that will fill your savings account instead of your garbage can:

- Is this product recycled or recyclable? This decision reduces the environmental impacts right from the beginning.
- Avoid food packaged in separate compartments or meal-in-one containers that are expensive and produce more waste.
- Reduce the purchase of individually packaged snacks. Buy in bulk when possible.
- Buy the amount of fresh food you will use for that meal, take any leftovers to work.
- Consider buying reusable products like napkins, razors, cups and utensils instead of disposable plastics.
- Reduce the use of disposable plastic packaging like plastic wrap and zip lock bags.
- Use reusable containers and reuse plastic bags multiple times for storing vegetables and other food products.
- Visit local thrift stores for used items like household furnishings, clothing, furniture and electronics instead of buying new.
- Rent and borrow instead of buying items used infrequently like tools and lawn mowers, camping equipment and specialty items.

Visit www.lanecounty.org/lessisbest for ideas and resources for living well with less waste.

Reuse Resources

Shopping at thrift stores, secondhand boutiques and garage sales is a great way to avoid buying new items—saving both cash and natural resources. Buying secondhand also helps prevent useful items from heading to the landfill, which has obvious environmental benefits.

In addition to local thrift stores like BRING Recycling, Goodwill, Habitat for Humanity of Central Lane and St. Vincent de Paul try these ideas when thinking about your next purchase:

- www.Eugene.craigslist.org
- www.Eugenetoolboxproject.org
- [www.Facebook.com/marketplace](https://www.facebook.com/marketplace)
- www.freecycle.org

Repair2ReUse in Lane County

Choosing to repair and reuse, builds a healthier local economy and environment.

Choosing to repair slightly broken or damaged items is just one way to decrease the amount of trash that ends up in our landfills. For an online directory of where to find repair shops for slightly broken or damaged items, visit www.repair2reuse.org.

www.lanecounty.org/garbageguru

Master Recycler Program

Over the last year, Lane County Master Recyclers have volunteered over 1,044 hours and shared their waste prevention expertise with over 4,300 people in our community. Every fall and spring, Lane County hosts a free 9-week course for 30 people to learn about the complex system of waste management and recycling.

Join the team of 1,030 Master Recyclers! Apply now for the spring or fall class, visit www.lanecounty.org/masterrecyclers or call (541) 682-2059.

Being a Master Recycler is more than just recycling—it's a family of passionate people who inspire neighbors and coworkers to live well.

Churchill High School Master Recyclers

The Rachel Carson Environmental Science Academy provides the only school-based Master Recycler training program in the state of Oregon using the same presenters, tour sites and training materials as the adult class, including Recycling 101 Online through Oregon State University. Twenty high school seniors complete this award-winning training each year. For more information, call (541) 790-5264.

Recycling 101 Online

Whether you're looking to develop your professional understanding or hoping to make a difference in your home and community, this online course will help you discover recycling and waste management facts. Learn about the larger issue of consumption, from how much waste we generate to how it's managed in our community (\$50 for individuals, \$35 for groups of 5 or more). Recycling 101 is free-of-charge to those enrolled in Lane County's Master Recycler Program, visit www.pace.oregonstate.edu/catalog/recycling-101-certificate.

Event Recycling Resources

Any event, large or small can be a Zero Waste event! Lane County in partnership with the City of Eugene offers resources to help event planners reduce the amount of waste sent to the landfill. For Zero Waste event ideas, preparation checklists and how-to guides, visit www.eugene-or.gov/2755/Sustainable-Event-Resources.

Water Bottle Refilling Stations

The City of Eugene offers nine large water refill stations to reduce the use of plastic bottles at local events. For more information visit www.eugene-or.gov/3896/The-Water-Station-Project or email WastePrevention@ci.eugene.or.us.

For water station reservations, delivery and set-up services for a \$50 fee, call Action Rent-All at (541) 726-6517.

Waste Free Oregon

Waste Free Oregon offers Zero Waste management services to help events and venue operators ensure materials generated are managed sustainably, visit www.wastefreeoregon.com or call (541) 232-2834.

Recycling Bin Loan Program

Recycling and compost bins are available for event planners on a first-come, first-serve basis. For more information, visit

www.Lanecounty.org/eventrecycling, email kelly.bell@co.lane.or.us or call (541) 682-2059 to reserve bins for your next event.

Dishware Loan Program

For small events Lane County lends out picnic kits of reusable utensils, plates, cups and napkins. 4 kits in sets of 25 are available first-come, first-serve. The sets are not matching, but are perfect for informal gatherings. For more

information, visit www.Lanecounty.org/eventrecycling, email kelly.bell@co.lane.or.us or call (541) 682-2059 to reserve bins for your next event.

Is it recyclable? Ask Garbage Guru

www.lanecounty.org/garbageguru

School Resources

Materials Exchange Center for Community Arts

MECCA inspires creative reuse by offering the community affordable art supplies, workshops, studio and gallery space. Art supplies are available to teachers and educators for free. For more information, visit www.materials-exchange.org or call (541) 302-1810.

BRING Tours & Classroom Presentations

Lane County in partnership with BRING Recycling provides free classroom presentations, tours of local garbage and recycling facilities, lessons and resources on waste prevention. Students learn about recycling, natural resources, composting, climate change and more. For more information, visit www.bringrecycling.org/learn or call (541) 746-3023.

Oregon Green School Grants

Lane County provides \$500 grants to ten K-12 schools each year that certify in the Oregon Green Schools (OGS) program. Partners for Sustainable Schools, a local

non-profit, provides free technical assistance, coordinates local/statewide recognition, and teacher/student attendance at the annual OGS conference. For more information, visit www.ogslanecounty.org or call (541) 636-0096.

Prevent Food Waste—Resources

Wasted Food, Wasted Money

Each year, an estimated 30-40 percent of all food produced and imported for consumption in the U.S. is never eaten. Of that food, 40 percent is estimated to come from restaurants, grocery stores and commercial kitchens. Visit the links below to access resource guides provided by Oregon Department of Environmental Quality (DEQ):

Commercial Food Service Resource Guide www.oregon.gov/deq/FilterDocs/wpcfoodcomguide.pdf
 Restaurant Resource Guide www.oregon.gov/deq/FilterDocs/wpcfoodrestguide.pdf
 Grocery Store Resource Guide www.oregon.gov/deq/FilterDocs/wpcgroceryguide.pdf

Business Resources

rethink Business

Lane County, in partnership with BRING Recycling, offers free technical assistance, advice and resources to

help businesses reduce waste and save money. Expert advisors conduct an on-site assessment and provide customized reports detailing opportunities to conserve resources and save money. For more information on how your business can achieve rethink certification, visit www.bringrecycling.org or call (541) 746-3023.

Free Recycling Boxes for Businesses

Make recycling easy! Order free recycling boxes for every area of your office. Paper, notebooks, envelopes, file folders—even bottles and cans can go in “the box.” A smaller “deskside” box (12” x 9” x 12”) fits under your desk and a larger “central collection” box (26” x 12” x 18”) is perfect for copier and break rooms. To order boxes, email rethink@bringrecycling.org or call (541) 746-3023.

Love Food, Not Waste

Each year Lane County throws away 91 million pounds of food waste in the local landfill. Eugene and Springfield businesses can do their part to make sure food scraps get turned into compost. Sign-up your business in four easy steps:

- Contact your garbage company to sign up for service (see p. 13).
- Schedule a training session with your garbage company for free technical assistance, containers, posters, decals and training materials.
- Raise awareness with your staff by communicating the new compost collection system.
- Start composting!

Builders & Contractors

Construction Materials Recovery and Reuse Program (CMR2) offers free on-site assessment, resources and support for recycling and recovering usable building materials on job sites. For more information, visit www.bringrecycling.org or call (541) 746-3023.

Business Electronic Waste

Next Step Recycling, a local non-profit who provides electronic reuse and recycling services, offers free pick-up for businesses who want to donate and/or recycle their unwanted electronics. Donations are tax deductible. For more information, visit www.nextsteprecycling.org or call (541) 686-2366 to schedule a pick-up.

Is it recyclable? Ask Garbage Guru

www.lanecounty.org/garbageguru

Curbside Garbage & Recycling

Oregon Opportunity to Recycle laws require that cities with populations over 4,000 ensure that recycling services are provided to all curbside garbage customers.

In Lane County, some cities franchise with a single company (Coburg, Cottage Grove, Creswell, Springfield, Veneta), some cities issue licenses to more than one company (Eugene, Florence), others provide collection through a public works department (Junction City).

Outside the city limits and inside the urban growth boundaries of these cities, Lane County is responsible for ensuring garbage companies are in compliance with these laws.

In the unincorporated areas, collection services are unregulated. Lane County ensures the opportunity to recycle exists for these areas by operating drop-off locations at 15 Lane County transfer stations for garbage and recycling (see p. 16-20) for locations, hours and fees.

Cart Placement

Carts should be spaced at least three feet apart from one another. Carts should be placed for collection no earlier than 7pm on the evening prior to collection day and removed by midnight on the day of collection. Carts should be placed into the street with the wheels against the curb, but shouldn't be placed where they block sidewalks or bike lanes.

Garbage & Recycling Companies

To start curbside service, contact garbage companies listed below. If you have questions about commingle recycling, cart placement, inclement weather, etc., contact your garbage company directly.

Garbage and recycling companies operate every day in Lane County, often in the early morning or at night. Trucks stop frequently and the job often requires drivers to leave the safety of their cab. Please use caution when you see garbage and recycling vehicles.

Prohibited Waste

These items are banned from the garbage by Oregon law ORS 459.247

Appliances • Computers • Lead Acid Batteries • Monitors • Motor Oil • Televisions • Tires

Lane County transfer stations collect motor oil, car batteries and electronics at no charge. Fees for other items may be required to offset the cost of recycling (see p. 18-20).

Recycle It Right

Recycling is important because using materials we recycle to make new products saves energy compared to using resources that are extracted or mined from the earth. Sending our usable discards to be remanufactured reduces pollution by 30 – 95% (depending on material type) and creates jobs in the local and global economy.

Recycling the wrong material is more harmful than helpful. Putting incorrect items in the cart damages the whole system by causing equipment failure, contaminating good materials with garbage and reduces the value of commodities.

Top 4 Recycling NO-NOs

Cups & to-go food boxes

Coffee, soft drink cups, ALL cups, to-go boxes & more.

Paper intended to hold liquid or food contains either a chemical additive or plastic layer—both not recyclable. Plastics can't be properly sorted by sorting equipment & must be put in the trash.

Clear containers for deli, produce, bakery and other products

Often made of 2 laminated plastics, they are not recyclable.

Put them in the trash if you cannot find ways to reuse them at home.

Frozen food boxes

Frozen pizza boxes, microwave dinners, ice cream cartons & more.

This cardboard is infused with a plastic that can't be removed during the recycling process. Put them in the trash.

All plastic bags & other types of film

Plastic grocery, bread, dry-cleaning bags & more.

Stretchy plastics get tangled in the machines at recycling facilities causing problems. Return them to participating retailers (Safeway, Albertsons, etc.) or put them in the trash.

If in doubt, find out, or leave it out!

Is it recyclable? Ask Garbage Guru

Curbside Recycling

Follow Your Garbage & Recycling Company's Instructions

Comingle these materials—all materials must be clean & free of food residue

Paper

Cereal, soap & shoe boxes
Computer & miscellaneous paper
Corrugated cardboard
Egg cartons
Junk mail & catalogs
Magazines & phone books
Newspaper
Paper bags & paper gift wrap

No food contaminated paper, to-go boxes, paper plates, cups, napkins, towels or tissues, waxed cardboard.

Metal

Aluminum cans, foil & trays
Steel & tin cans

Do not flatten or remove lids.
Ball up foil & trays into large ball.

Plastics

Milk jugs & other transparent drink bottles ONLY

NO OTHER PLASTIC

Do not flatten. Discard lids.

Check with your garbage company, services vary.

Yard Debris—anything that grows goes

Brush & fruit tree discards
Grass clippings & weeds
Leaves
Limbs under 4" diameter
Plants & flowers

NO

Dirt
Lumber
Pet waste
Rocks
Root wads
Stumps

Check with your garbage company, services vary.

Set Glass & Motor Oil out separately. Do NOT place in commingle container.

Glass Bottles & Jars only

Check with your garbage company, services vary.

Empty & rinse containers, remove lids, labels are OK.
NO dirty or broken glass.

Motor Oil ONLY – NO other auto fluids

Check with your garbage company, services vary.

Store in plastic container with a screw top. Ask your garbage company where to place container.

www.lanecounty.org/garbageguru

Lane County Transfer Stations

Transfer stations are open to the public for self-haul drop off of recycling and garbage. Lane County transports the garbage to the Short Mountain Landfill in large loads—reducing traffic to and from the landfill and saving energy, time and money. Much of the recyclable materials such as scrap metal, yard debris, and wood waste are transported by Lane County to privately owned facilities for processing. Other materials are collected and recycled on a contractual basis by private companies and non-profit organizations.

Garbage Fees

Garbage fees fund all programs offered by the LCWMD
No income or property taxes are used to pay for LCWMD programs

Quantity	Rural Sites	Glenwood & Florence
Minimum fee - up to 1 cubic yard	\$12.00	\$12.00 minimum
1 to 3 cubic yards	\$20.00	\$82.08 per ton
Each cubic yard over 3	\$10.00	\$82.08 per ton
Demolition per cubic yard	\$15.00	\$82.08 per ton
Rubble, Roofing, Stumps, Rock, Dirt	\$39.50/cy (1/2 cy minimum \$19.75)	\$82.08 per ton

For additional fees (e.g. mattresses, wood waste, yard debris, see p. 20).
Fees subject to change without notice, visit www.lanecounty.org/waste or call (541) 682-4120.

Payments Accepted

All sites accept cash or in-state check.
We accept debit and credit cards at all sites EXCEPT: London, Low Pass, McKenzie Bridge, Sharps Creek, Swisshome and Walton.

Discounts

- Senior discount per load (60+ years) — \$1.00 off
- Recycling discount per load (10 pounds min.) — \$1.00 off
- Discounts can be donated to Food for Lane County.

Cover Your Load

It's against the law to litter on Oregon roadways.

Load your vehicle with garbage first and recycling last so you can easily drop off recyclables and get the \$1.00 recycling discount.

Recycling Items With a Fee at Transfer Stations

FEE Items	Cottage Grove	Creswell	Glenwood	Florence	London	Low Pass	Marcola	McKenzie Bridge	Oakridge	Rattlesnake	Sharps Creek	Swisshome	Veneta	Vida	Walton
Appliances (Freon containing)	•	•	•	•	•	•	•	•	•	•		•	•	•	•
Concrete			•												
Mattresses			•												
Propane Tanks	•	•	•	•	•	•	•	•	•	•		•	•	•	•
Tires	•	•	•	•	•	•	•	•	•	•		•	•	•	•
Wood Waste	•		•	•											
Yard Debris	•		•	•											

Material Preparation for Recovered Items with A FEE		
Appliances	Refrigerators, air conditioners, freezers & heat pumps. All units that contain Freon. Do not cut cords or drain Freon. No commercial units. Remove all food. <i>Some appliances accepted for free as Scrap Metal (see p. 18).</i>	\$15.25 each See p. 32 for money saving tips
Concrete	Grocery cart-sized chunks or smaller (max. 10 cys). Rural sites accepted as garbage.	Glenwood: \$82.08 per ton. Rural: \$39.50 per cy—\$19.75 min.
Mattresses	Mattresses & box springs recovered at Glenwood only, clean & dry (max.10 units per day). Rural sites accept mattresses as garbage (up to 4 units per day).	Glenwood: \$12 per mattress, up to 4 units 5 or more \$205.20/ton—\$60.00 min. Rural sites: charge by volume See p. 16 for details
Propane tanks	Maximum size, 10 gal. Propane only.	Up to 10 gal— \$4.50 1-lb camping—free
Passenger Tires/ Light Truck	Maximum 24" diameter (all tires measured at rim) air-filled; no solids. No more than 10 tires per day. No heavy duty truck, off-road or commercial purpose tires.	Under 17" tire— \$3.00. On rim \$4.00 17"-24" tires—\$10.00. On rim \$20.25
Wood Waste & Yard Debris	Wood Waste: Lumber, pallets & most wood products. Painted OK. No MDF/pressed paper board, mixed materials, railroad ties, or hardware larger than your thumb. No foam core, Formica™ or plastic. These are garbage. Yard Debris: Grass, brush, leaves, garden debris & limbs up to 12" diameter. No bagged material.	Glenwood & Florence: \$72.97 per ton —\$8.00 min. Rural sites: up to 1 cy—\$8.00 Over 1 cy to 3 cys—\$15.50 Over 3 cys—\$8 per additional cy.

Fees subject to change without notice, visit www.lanecounty.org/waste or call (541) 682-4120.

Report Illegal Dumping

Lane County's Nuisance Abatement Program cleans up illegal dump sites along county roads. When identified, illegal dumpers face civil citations and may be ordered to pay the cost of cleaning up the site.

You can help by reporting illegal dumping on county right-of-ways:

- 1. Record the date, time and exact address.
- 2. Write down the license plate number and vehicle description if possible.
- 3. DO NOT TOUCH OR REMOVE ANYTHING!

To report a dump site on a road maintained by Lane County, visit www.lanecounty.org/reportadumpsite, email lanecountydumpsitereporting@co.lane.or.us or call (541) 682-4533.

To report dump sites inside a city or on a state or federal highway, please contact the city or the Oregon Department of Transportation (ODOT) 1(888) 275-6368.

Is it recyclable? Ask Garbage Guru

www.lanecounty.org/garbageguru

Construction & Demolition Recycling—New Requirement

Lane County requires that all loads of construction and demolition materials, **6 cubic yards or more, be separated for recycling** or be delivered to one of the area’s two Material Recovery Facilities (MRFs) for sorting:

Ecosort (541) 726-7552

McKenzie Recycling (541) 913-6079

The requirement applies to Glenwood and Short Mountain ONLY. Loads that do not contain recyclable materials can be disposed of at Short Mountain or at Glenwood transfer station as usual.

The targeted materials are recoverable wood, yard debris, metal, cardboard and rubble. These materials are recyclable at the Glenwood transfer station and other facilities in the community, visit www.lanecounty.org/garbageguru to find recyclers and www.lanecounty.org/constructionwaste for more information about this rule.

The Construction Materials Recovery and Reuse Program (CMR2) offers free on-site assessment, and resources. For more information, visit www.bringrecycling.org, email info@bringrecycling.org or call (541) 746-3023.

Material	Location	Contact
Mixed Loads of Construction Debris	EcoSort Material Recovery Facility	(541) 726-7552
	McKenzie Recycling	(541) 913-6079
Source-Separated Wood	Lane Forest Products/Action Drop Box	(541) 345-9085
	Rexius Sustainable Solutions	(541) 342-1835
Source-Separated Concrete	Delta Sand & Gravel	(541) 688-2233
	Lane Forest Product	(541) 345-9085
	RiverBend Materials	(541) 485-1084
Source-Separated Metal and Wire Scrap	Mid Valley Metals Recycling	(541) 747-0168
	Pacific Recycling	(541) 461-3443
	Schnitzer Steel	(541) 686-0515

Asbestos Disposal

Why is Asbestos Hazardous?

Asbestos is made up of microscopic mineral fibers that easily become airborne and inhaled during construction projects. Exposure to airborne asbestos is associated with lung cancer, mesothelioma, asbestosis (“black lung”) and other cancers. Asbestos is found in commercial, industrial, and residential settings and in a wide range of consumer products. Although its use has diminished, there are still homes and buildings that contain asbestos building materials like plaster texturing materials (popcorn ceiling), vinyl-asbestos tile, sheet-vinyl flooring with asbestos backing, cement-asbestos board and some insulation and roofing materials.

Handling Asbestos and Safe Asbestos Removal

Asbestos that is disturbed in a demolition or remodeling project can become airborne and pose a danger to you and others. For more information about asbestos and asbestos abatement, visit **Lane Regional Air Protection Agency (LRAPA)** www.lrapa.org, email asbestos@lrapa.org or call (541) 736-1056.

Disposal of Asbestos-Containing Building Materials at Transfer Stations

The Oregon Department of Environmental Quality (DEQ) requires that Lane County screen for and prevent the acceptance of, asbestos in materials brought to Lane County transfer stations. To ensure the safety of our customers and the public, Lane County requires paperwork for all loads of construction, remodeling or demolition waste for materials that may contain asbestos.

Loads of construction, remodeling and demolition debris brought to Lane County transfer stations will be screened for materials that may contain asbestos. **Here are some steps you can take to prepare your load of construction waste for delivery to a Lane County transfer station:**

1. Use an accredited asbestos inspector to survey your project for materials that may contain asbestos.
2. Have any suspect materials tested by an analytical laboratory.
3. Fill out a **LRAPA ASN-4** Asbestos Waste Shipment Report Form.
4. Bring the analytical report with your load to show that suspect materials contain less than 1% asbestos.

Disposal of Asbestos-Containing Building Materials at Short Mountain Landfill

Lane County accepts asbestos-containing building materials for disposal at Short Mountain Landfill. The materials must be specially packaged and labeled in accordance with federal law. Loads must be properly and safely prepared before they are delivered to the landfill. Please call (541) 682-4120 in advance of your delivery for details, hours of operation and pricing.

More Information about Asbestos

For information about how to identify asbestos and protect yourself, your family and neighbors, along with lists of analytical laboratories and licensed asbestos abatement contractors from DEQ, visit www.oregon.gov/deq or call (503) 229-5982.

Is it recyclable? Ask Garbage Guru

www.lanecounty.org/garbageguru

Green Cleaning

Common Hazardous Products in the Home

Read product labels carefully before you buy and watch for the words **danger**, **warning** and **caution**. Products with these words are considered more hazardous. Buy the least hazardous products you can find to do the job or stock up with items on the list below and make your own.

If you must purchase hazardous products, buy only what you can use up completely to avoid the dangers of storing or disposing of the product.

Try these alternatives to save money and reduce potential hazards that chemicals create.

Make Your Own Green Cleaning Kit

Use these safe, basic supplies in various combinations to replace chemical cleaners.

- | | | |
|-----------------------|-------------------------------|------------------------------------|
| • Alcohol - sanitizes | • Flour | • Salt |
| • Baking soda | • Hydrogen peroxide - whitens | • Toothpaste |
| • Borax | • Lemon juice | • Vegetable oil - removes adhesive |
| • Club soda | • Liquid soap | • White vinegar |

Try These Recipes:

Adhesive removal—Apply generous amount of vegetable oil and let sit 1 hr.-overnight. Wipe away adhesive.

Pot and surface scrub—Sprinkle with baking soda, spray with white vinegar, let bubble and sit, wipe off and rinse.

Crayon remover—Rub mark with toothpaste and a damp cloth. Do not use on non-vinyl wallpaper.

Paper craft glue—Mix a small amount of warm water into flour to form a paste. Use small amounts at a time. It works!

Do Not Dispose Hazardous Products in the Trash

Try giving leftover products to someone who will use them or call Lane County Hazardous Waste Collection Center to make an appointment for disposal of chemicals (541) 682-4120. For more green cleaning recipes, visit www.LaneCounty.org/greencleaning.

Hazardous Waste Disposal

Many common household products contain hazardous ingredients. From paints and hobby supplies to bathroom cleaners, pool and lawn care products, anything with a caution label such as **Danger**, **Warning**, or **Caustic** can become a dangerous pollutant to groundwater and streams when not properly handled. Avoid the use of these products to save money and protect children and pets from exposure. When household chemical products are leftover and unwanted, contact Lane County's Hazardous Waste Collection Center for safe disposal. It's free to households. For more information, visit www.lanecounty.org/hazwaste or call (541) 682-4120.

Three Easy Steps to Dispose of Your Hazardous Waste:

- Call (541) 682-4120 to make an appointment.
- Keep products in original labeled containers if possible or label known items. Secure containers in a box to keep them from tipping over in transit (**35 gallons maximum, no commercial quantities, no empty containers**).
- Enter the Glenwood transfer station through the center lane and follow signs to Hazardous Waste Collection Center. Please stay inside your vehicle, our staff will unload the waste for you.

Rural Collection Events

Rural events are scheduled several times a year. For dates and locations, visit www.lanecounty.org/hazwaste or call (541) 682-4120.

Businesses

Services are available by appointment for minimal fees. For more information, visit www.lanecounty.org/hazwaste or call (541) 682-4120.

We CANNOT accept asbestos, explosives (old road flares OK), infectious waste, radioactive waste, containers over 5 gallons. For information on how to dispose of these items call (541) 682-4120.

Is it recyclable? Ask Garbage Guru

www.lanecounty.org/garbageguru

Prescription Medicine Disposal

Leftover and outdated pharmaceuticals cause problems in our community. Please do not flush medication down the toilet, sink or throw in the garbage. Wastewater treatment systems are unable to remove pharmaceuticals from the waterways.

Easy-to-use drop boxes are available at city halls and law enforcement offices throughout the county. Prescription pills should be out of original containers and placed loose in a plastic bag. Why use the Drug Take-Back and Disposal Box?

- Reduce opportunity for prescription drug abuse, especially among kids and teens.
- Keep our waterways clean.
- Reduce avoidable poisonings of pets and children.

Nursing homes, care facilities and medical businesses can dispose of non-narcotic medications by contacting our hazardous waste staff at (541) 682-4210.

Sharps Disposal

Household hypodermic needles and lancets are accepted at most Lane County transfer stations for FREE (see p. 17-18 for locations). It is illegal in Oregon to dispose of syringes and other medical sharps in the trash due to the dangers posed to workers.

By law, needles and lancets must be placed in a red, rigid, leak-proof, puncture-resistant container before disposal. Sharps containers are available at pharmacies and are strongly recommended as they provide the best protection for waste handlers. Other red/orange rigid containers may be acceptable. For more information, call Lane County (541) 682-4120.

NOT ACCEPTABLE: Milk jugs, coffee cans, beverage containers, etc.

Group homes, health-care facilities and other commercial offices must make special arrangements to dispose of sharps and other medical wastes and may NOT use transfer stations for disposal. Call (541) 682-4120 for referrals.

Paint Disposal & Recycling

Oregon is the first state in the nation to enact a law requiring paint manufacturers to safely manage leftover household paint from consumers.

Local paint stores cooperate with manufacturers to provide convenient drop-off options for unused house paint. Ask your favorite local store or for a list of participating locations or visit www.PaintCare.org and enter your zip code. Lane County's Glenwood transfer station recycling area is a Paint Care collector:

- The Glenwood transfer station accepts up to 20 gallons of paint (measured in can size, not contents).
- Labels must be intact and readable.
- No rusty cans, holes or leaks.
- Only architectural paint and stain—no industrial paints or coatings.
- No empty cans or dried paint.

If you have paint not accepted in the PaintCare program, call (541) 682-4120 to make an appointment for household hazardous waste disposal.

Is it recyclable? Ask Garbage Guru

www.lanecounty.org/garbageguru

Fluorescent Lighting Disposal

All fluorescent lamps contain mercury, which is a pollutant if placed in the trash. The good news is—they are recyclable! Lane County has arranged convenient drop-off locations for compact fluorescent bulbs and short (4 ft. or less) at most local lighting and hardware stores in the Eugene/Springfield area. For a complete list, visit www.lanecounty.org/lamps or ask your favorite store.

Lane County's Glenwood transfer station recycling area accepts a maximum of 10 bulbs or tubes (up to 8 ft). Bulbs are also accepted through our hazardous waste program by appointment, call (541) 682-4120. Disposal is free for households and minimal fees apply to businesses.

Electronic Waste (E-Waste)

Free Statewide Program Offers Recycling Options

Electronics not only contain hazardous substances that can pose dangers if disposed, they contain a host of substances which are rare and highly polluting to manufacture. Consider donating repairable and reusable electronics to Next Step Recycling, Goodwill, or St. Vincent de Paul.

It is illegal to dispose of televisions, computer monitors, CPUs and laptops in the garbage.

Oregon E-Cycles provides free recycling of computers (desktops, laptops, tablets), monitors, TV's, printers and peripherals (keyboards and mice). To find a collector near you, visit www.oregonecycles.org or call (888) 5-ECYCLE.

Lane County is an Oregon E-Cycles collector at 9 of the 15 transfer stations (see p. 18 for locations). **A maximum of seven items per visit are accepted.** Floor-standing copiers, larger quantities and items that have been dismantled are **not** accepted.

Lithium Batteries Create Hazards—Call to dispose!

Lithium batteries (aka LiPo, LIP, Li poly and other names) are showing up in electronic equipment—mainly in remote control toys and devices, cell phones and other small gadgets.

Lithium batteries are dangerous and do not go in the garbage! When the outside casing of lithium batteries are exposed to air and moisture, they can ignite and create fires. Call (541) 682-4120 to make an appointment for lithium battery disposal.

Household Batteries

Alkaline batteries manufactured after 1996 are free of mercury and can go into the garbage. **All other batteries – button, rechargeable alkaline, ni-Cad, lithium, silver oxide can be recycled at Lane County transfer stations** (see p.18) and most battery and electronics stores. Visit www.call2recycle.org to find the nearest location. www.call2recycle.org also offers free mail-in service for rechargeable batteries – a good resource for schools and businesses.

Alkaline batteries go in the garbage.

Rechargeable alkaline

Power tool batteries

Button batteries

These batteries and others can be recycled.

Is it recyclable? Ask Garbage Guru

www.lanecounty.org/garbageguru

Compost at Home—Save Money, Make Valuable Fertilizer

Compost can be easy to make and offers many benefits, from helping your garden grow greener—for free—to lightening the load of your curbside yard debris roll cart and reducing the need to purchase and haul soil, fertilizers and pesticides.

The basic ingredients for compost are "browns," "greens," air and water. "Browns" like fall leaves and woody materials are high in carbon—an essential energy source for microorganisms in the compost. "Greens" like grass clippings, fruit and vegetable trimmings, are high in nitrogen—an essential nutrient for the decomposer microorganisms.

Earth Machine

Lane County partners with BRING Recycling to ensure that Earth Machine composters are available year-round. Stop by BRING at 4446 Franklin Blvd or for more information, visit www.bringrecycling.org or call (541) 746-3023.

Worm Bin

Lane County residents can purchase easy-to-use stacking worm bins for \$42.00 (plus shipping) at www.createcompost.com. Select the purchase option without worms, visit www.lanecounty.org/compost for a list of local worm retailers and information on how to keep worms working for you. Worm castings are known to be an extremely valuable plant food.

Master Gardener Program

Oregon State University
Extension Service
Master Gardener

Learn how to compost at several demonstration gardens throughout the county featuring self-guided tours and workshops offered by the OSU Extension Service in partnership with the City of Eugene.

Visit www.lanecounty.org/Compost for a schedule of compost workshops throughout Lane County. For more information about the Master Gardener Program, visit www.extension.oregonstate.edu/lane or call (541) 344-5859. Printed information is available at the Master Gardener Program, 996 Jefferson St, Eugene.

Get Answers to Your Compost Questions!

Call Master Gardener Plant Clinic (541) 344-0265 Monday - Thursday 10am - 1pm and 2pm - 5pm.

Great Gardens Without Pesticides or Herbicides

Garden chemicals can be harmful to humans, pets, wildlife (pollinators) and waterways. The good news is that there are many easy ways to care for your lawn and garden that avoid using pesticides and herbicides.

While "Weed and Feed" and other weed and bug killers may offer short-term convenience, many ingredients in these products can harm people, pets and pollinators—and pollute the waterways we all rely on.

Here's how:

Lawn Care Without Herbicides

- Mulch-mow (or grasscycle) to save time, money and health. Clippings act as free fertilizer. Leave the clippings or rake them in.
- Mow regularly, when the grass is dry, taking only about 1/3 off the top. Aim for 3 inches in height. This shades out weeds and encourages deeper roots.
- Sharpen mower blades at least once a year. And when it's time to buy a new mower, purchase a push-reel mower or mulching electric mower to enjoy the job without the noise and exhaust fumes of gasoline-powered mowers.
- Hand pull weeds, and reapply grass seed to crowd the young ones out.

Save Money Make Pesticides Unnecessary

- Clean up garden debris in fall/winter. Many pests lay eggs in the leaf litter to hatch the following year.
- Neem oil, diatomaceous earth, and insecticidal soap work just as well as pesticides without risking chemical harm to children, pets, pollinators and waterways.
- Make your own pest sprays using common household ingredients such as garlic, cayenne, dish soap and Epsom salts. You'll find easy recipes online.
- Beneficial insects such as ladybugs and nematodes are widely available to target specific problems, research online or ask your favorite garden store.
